PROFESSIONAL SUMMARY

Motivated and results-driven Software Developer with a Bachelor's degree in Computer Science Engineering from Mediacaps University (2026). Proficient in Core Java, Java backend development, MERN Stack, React.js, and Data Structures & Algorithms, with hands-on experience building full-stack applications and REST APIs. Completed a Software Development Internship at Vena Solutions, contributing to API integration, backend services, React-based frontend development, database integration, debugging, testing, and Agile SDLC practices. Passionate about writing clean, scalable code, solving complex problems, and continuously learning modern technologies to build impactful software solutions.

WORK EXPERIENCE

Software Development Intern | Vena Solutions Software India Pvt. Ltd.

February 2026 – June 2026 | Full-Time Onsite, Indore, Madhya Pradesh

- Developed and enhanced Java backend services, REST APIs, and microservices as part of enterprise full-stack applications.
- Built and maintained responsive user interfaces using React.js with state management and backend integration.
- Worked on database integration, API integration, debugging, testing, and code optimization throughout the Software Development Life Cycle (SDLC).
- Contributed to the development and maintenance of the Power BI and Connectors modules, writing and fixing UI automation tests using Playwright to improve application reliability.
- Utilized Datadog to analyze application logs, traces, and performance metrics for troubleshooting backend issues, identifying root causes, and validating application behavior during development and testing.
- Migrated API test cases to the Rest Assured framework and resolved flaky test cases to enhance test stability and execution efficiency.
- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning, daily stand-ups, code reviews, sprint reviews, and retrospectives.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Backend Technologies: Spring Boot, Node.js, Express.js, REST APIs

Frontend Technologies: React.js

Databases: MySQL, MongoDB

Core Java: OOP, Collections Framework, Exception Handling, Multithreading, JDBC

Core Concepts: Data Structures & Algorithms, DBMS, Operating Systems, SDLC, Agile Methodologies

Tools & Platforms: Git, GitHub, Playwright, Rest Assured, Datadog

PROJECTS

Movie Ticket Booking System

Key Skills: Java, Spring boot, Maven, MySQL, REST APIs

- Implemented role-based access control for users and admins with secure login and registration.
- Built RESTful APIs using Spring Boot, Hibernate, and SQL for movies, shows, and seat bookings.
- Ensured concurrency-safe seat booking using database locking and transaction control.
- Designed relational schema (Users, Movies, Shows, Seats, Bookings) with optimized queries and constraints.

Expense Tracker (Fin-Sight)

Key Skills: Node.js, Express.js, MongoDB, REST APIs, React.js, API Integration

- Developed a full-stack expense management application to track income, expenses, and financial transactions.
- Designed MongoDB schemas and built RESTful APIs using Node.js and Express.js for secure data storage and retrieval.
- Implemented automated financial report generation with downloadable summaries and transaction analytics.
- Built **Fin-Sight**, an AI-powered finance assistant that provides personalized financial insights, savings recommendations, and intelligent financial query support through backend services

EDUCATION

B.TECH. — Computer Science & Engineering | Mediacaps University | CGPA: 8.79 / 10.0 | 2022 – 2026

Senior Secondary (Class XII) | CBSE Board | Percentage: 90% | 2022

Secondary (Class X) | CBSE Board | Percentage: 90% | 2020

CERTIFICATIONS

- PWC Launchpad Program**
- Full Stack Development Course**
